Circuit Profiles

FLORIDA JUDICIAL BRANCH

Court Reporting Services

CIRCUIT PROFILES

February 2015

Office of the State Courts Administrator, Court Services

Florida Supreme Court Building
 500 South Duval Street
 Tallahassee, FL 32399-1900

Phone: 850-922-5094
 Fax: 850-414-1342
www.flcourts.org

In 2005, the Commission on Trial Court Performance and Accountability (TCP&A) approved the publication of the *Court Reporting Services Circuit Profiles*. This publication was created for the purpose of providing court managers with access to information on court reporting programs within Florida's trial courts. Each circuit profile contains court reporting circuit specific information such as fiscal allotments, staffing models, service delivery models, digital logistics, measurable workload outputs, contractual rates, and network configurations.

In Florida's trial courts, court reporting programs have evolved over the last decade as the trial courts have adjusted to changes in the funding structure. Prior to 2004, court reporting programs were funded by the counties and because some counties provided more funding than others, significant variations existed in the delivery of services across the state. Upon the implementation of Revision 7 to Article V of the Florida Constitution in 2004, circuits transitioned to being funded by the state. This funding shift allowed for equity in service delivery across the circuits and thus, enabled the trials courts to work systematically towards similar court reporting goals. Since then, the courts have been working steadily to improve the effectiveness and efficiency of court reporting services statewide. To keep pace with evolving court reporting programs, the profiles serve as a resource tool as we continue to explore and implement best business practices.

In addition to the court reporting circuit profiles, the TCP&A has issued four reports to help guide the circuits on the most efficient and effective management of court reporting services. The first report issued in December 2002 in preparation for Revision 7 addresses the purpose, legal necessity, delivery methods, costs, and performance measurement of court reporting services. The second report issued in February 2005 outlines a *Statewide Plan for Effective Use and Management of Court Reporting Services*. This plan provides overall goals, objectives, and strategies for court reporting services in Florida's trial courts post-Revision 7. The third report issued in October 2007 titled, *Recommendations for the Provision of Court Reporting Services in Florida's Trial Courts* provides several standards of operation and best practices aimed at improving the efficient and effective functioning of court reporting services. This report also includes proposed rule and statute revisions. The fourth report issued in November 2009 titled, *Recommendations for the Provision of Court Reporting Services in Florida's Trial Courts – Supplemental Report* was issued to refine the proposed standards of operation and best practices originally submitted in the October 2007 report based on the release of SC08-1658 pertaining to court reporting rule revisions. These reports may be viewed on the State Courts System's website at: <http://www.flcourts.org/publications-reports-stats/publications/>

DEFINITIONS

To assist in reviewing the information contained in each profile, the following definitions (listed in the same order they appear on the profile) are provided:

FY 2014-15 Fiscal Allotments – Indicates state funded recurring general revenue (GR) and trust authority as allotted by the Trial Court Budget Commission for court reporting services. FTE indicates total number of employees (GR and trust authority) dedicated to court reporting services. Budget amounts are listed by budget category (salaries/benefits, operating, contractual/maintenance, and cost recovery).

FY 2013-14 Expenditures – Indicates the annual direct service contractual and vendor maintenance expenditures.

Overall Staffing Model – Indicates the staffing model(s) used to deliver court reporting services by county. There are three types of staffing models: 1) Pure employee model, 2) Pure contractual model, and 3) Hybrid model which includes both employee and contractual models.

Transcript Services Model - Indicates the entities (i.e., State Attorney, Public Defender, or Justice Administrative Commission) in which a circuit has a shared cost arrangement for court reporting transcription services. Under a transcript services model, transcription services are provided to one or more of these entities using court resources in exchange for funds to cover the cost of transcription services. These funds are transferred to the court's budget at the state level and cost sharing authority is allocated to the participating circuits.

Monitoring Ratio (Best Practice) – The row labeled Monitoring Ratio (Best Practice) indicates the overall monitoring ratio for all types of proceedings combined by county. Subsequent rows indicate the monitoring ratio for each type of proceeding by county. Monitoring ratio is defined as the average number of proceedings monitored simultaneously per court employee and contractual staff (number of proceedings vs. court reporters). Monitoring ratios consider time to monitor and tag proceedings. Time for production of transcripts is not considered.

Classifications (FTE Employees) – Indicates the total number of state funded court reporting FTEs by classification and by county in which they are headquartered.

Service Delivery – Indicates the service delivery type(s) used to deliver court reporting services for each type of proceeding by county. The following is a description of each service delivery type:

Steno – Refers to a stenograph machine that is operated by a court reporter. A court reporter, by pressing a system of keys, creates a series of letters and numbers that are printed on a scrolling paper tape.

CAT – Refers to computer-aided transcription in which a computer is added to stenograph machine allowing keystrokes to be recorded on a disk or in the internal memory of a computer, as well as on paper tape.

Real-Time - Known as real-time stenography, a court reporter uses a CAT system to translate a digitized record contemporaneously, producing an unedited written document as the proceeding occurs. The unedited text can be viewed immediately, and later corrected by the stenographer. The speed and quality of this type of system is familiar to anyone who has followed the closed caption text of a live television program.

DEFINITIONS

Analog Audio – Refers to analog audio recording technology such as a tape recorder used to directly capture and preserve actual sounds of spoken words. Analog audio recordings are stored on magnetic or analog (cassette) tape.

Analog Video - Refers to analog video cameras used to capture actual sounds as well as video. Analog video recordings are stored on magnetic or analog (VHS) tape.

Digital – Refers to audio, and often video, recording of a court proceeding using digital technology that may be saved to a CD, DVD, network drive, or server. There are generally four distinctions of digital:

1. Digital Portable - Refers to recording technology such as laptops, hand-held devices, MP3 players, etc. to record court proceedings. Digital portable recordings may be stored digitally on a server, CD or DVD.
2. Digital Local - Commonly referred to as the 'courtroom model', digital local utilizes stationary digital systems such as desktops or stand-alone servers to record proceedings in the courtroom or hearing room. This model requires a court reporter to be present in the courtroom to operate the system. The court reporter 'monitors' the recording by logging speakers, making notations of who is present, checking sound quality, and providing playback when directed to do so by the judge. This form of monitoring is referred to as 'local monitoring' because the court reporter is physically present in the courtroom to monitor the recording.
3. Digital Central - The digital central model utilizes a local area network to allow court reporters to monitor proceedings from a remote room located within the same building. Under this model, monitor workstations are placed in a central control room to allow staff to operate audio/video equipment located in the courtroom. By integrating courtrooms to the central control room via a network, digital court reporters are capable of monitoring several courtrooms at once. This form of monitoring is referred to as 'central monitoring'.
4. Digital Remote - The digital remote model utilizes the same type of equipment as the 'central model' however, court reporters monitor proceedings from a remote room located in a different building over a wide area network. This form of monitoring is referred to as 'remote monitoring' because the court reporter is monitoring 'remotely' from a different building.

Voice Writing – Refers to a court reporter who records words spoken in a court proceeding by speaking directly into a voice silencer, which is a hand-held mask containing a microphone.

Number of Facilities - Refers to the total number of buildings where court proceedings are conducted. This includes judicial centers, jails, etc.

Courtrooms – The row labeled Courtrooms refers to the total number of courtrooms in each county. A courtroom is defined as a formal space in which a judge regularly holds court proceedings. In the trial courts, courtrooms include a bench, witness stand, jury box, a table for the plaintiff and the defendant, and other necessary amenities such as podiums or miscellaneous desks. The Analog A/V row indicates the total number of *courtrooms* where analog A/V equipment is installed. The Digital A/V row indicates the total number of *courtrooms* where digital A/V equipment is installed.

Hearing Rooms – The row labeled Hearing Rooms refers to the total number of hearing rooms in each county. A hearing room is defined as a room (judge chamber, conference room, etc.) that is utilized typically for conducting civil (non-criminal) proceedings. Hearing rooms have no requirements for prisoner handling, are smaller in scale, and have a variety of agency specific support space requirements that differ from courtrooms. The Analog A/V row indicates the total number of *hearing rooms* where analog A/V equipment is installed. The Digital A/V row indicates the total number of *hearing rooms* where digital A/V equipment is installed.

DEFINITIONS

Percent of Courtrooms & Hearing Rooms w/Analog & Digital Recording Capacity – Refers to the percent of total courtrooms and hearing rooms integrated and configured with digital court recording technology.

Handheld – Indicates the total number of digital portable hand-held devices and laptops used to record court proceedings.

Networked Monitoring Workstations – Refers to the total number of workstations that are used to enable staff to remotely or centrally monitor court proceedings as they are being recorded via a court distributed network.

Primary/Video Servers – Refers to hardware computer systems that are used to provide one or more services to other users (clients) or devices on the network or internet.

Secondary Servers – Refers to hardware computer systems that serve as back up to the primary server, but also preserve records created during the life of an organization for long-term preservation, such as archive servers.

Standalone/Transcription Workstations - Refers to a stationary desktop computer that is primarily used for the purpose of providing transcript production.

Stenographic/Real Time Systems – Total systems used to enable staff to record proceedings stenographically.

Digital Court Reporting Vendor – Refers to the digital court reporting vendor(s). Currently, seven vendors are on state contract: OpenCourt, BIS (Business Intelligence Solution), JAVS (Jefferson Audio Video Systems), FTR (For The Record), CourtSmart, VIQ Solutions, and Vericore.

Digital Court Reporting Central and Remote Monitoring Network Diagram - Refers to the operational aspects of a circuit's digital court reporting central and remote monitoring network. For each court venue, the number of rooms monitored centrally and remotely is indicated. For example, if a room is monitored centrally on a regular basis, it is listed as 'central monitored room'. If a room is monitored remotely on a regular basis, it is listed as 'remote monitored room'. The number of monitor workstations and servers integrated as part of the central and remote monitored network are also included. However, non-integrated devices, digital portable and digital local monitored rooms are not captured in this diagram unless otherwise indicated by the circuit.

FY 2013-14 Uniform Data Reporting – Refers to the summary of a circuit's total court reporting Uniform Data Reporting statistics for FY 2013-14.

Number of Hours – Indicates, for the proceeding types listed, the total number of hours recorded for each type of service delivery model. This does not include hours recording depositions, traveling, taking long breaks, or when a reporter appears for an event and no record is taken.

Number of Pages – Indicates, for the proceeding types listed, the total number of transcript pages produced for each entity requesting transcripts from the courts. This does not include transcript copies made or deposition transcriptions.

Number of Media Provided (CD, Audio or Video) – Indicates the total number of CDs, DVDs, cassette tapes, and video tapes provided to each entity requesting media from the courts. This does not include number of media provided to judges, court staff, or for archival purposes.

Contractual Service Providers – Circuit-Wide Fee/Rate Structure – Indicates the rates and/or rate ranges the circuit has established for the payment of contract vendor steno and digital appearances and for the payment of contract vendors providing steno and digital transcription services.

Digital Court Reporting Central & Remote Monitoring Network

Note: Not depicted in this diagram is the remote monitoring capability from each of the outlying counties. Staff located in outlying counties may monitor central/remote courtrooms of other counties. Circuit utilizes this capability on a daily basis.

Network Lines:

- State Courts System Network Line MAN
- - - - - Circuit Court Network Fiber

Note: Arrows at network line endpoints indicate direction of remote monitoring use. No arrow indicates no remote monitoring at this time, although all courtrooms listed are capable of remote monitoring.

Sixth Judicial Circuit

FY 2014-15

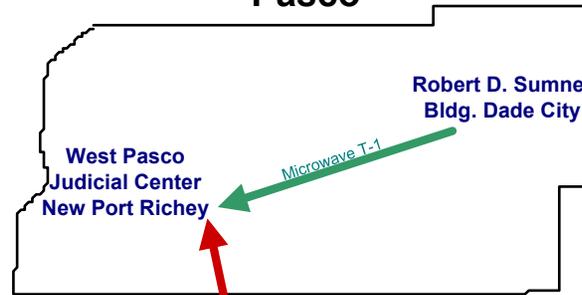

Digital Court Reporting Central & Remote Monitoring Network*

Note: The circuit utilizes remote-monitoring capabilities between Pinellas and Pasco counties on an as-needed basis. Three Pinellas courthouses have the ability to remote-monitor all seven Pasco-Pinellas facilities. Both Pasco courthouses have the ability to remote-monitor all seven Pasco-Pinellas facilities. North and South County Traffic facilities are unmanned and are remotely monitored. All facility recordings are archived at the Pinellas County Judicial Center.

Second DCA

CL171 Order issued at Set-up

This appeal appears to be an appeal of a final order in a dependency or termination of parental rights proceeding.

Florida Rule of Appellate Procedure 9.146(g)(2)(C) provides that the record shall be transmitted within five days of the filing of a transcript, and, if no designation to the court reporter accompanies the filing of the notice of appeal (as required by rule 9.146(g)(2)(B)), the record shall be transmitted within five days of the filing of the notice of appeal.

The parties' attention is drawn to rule 9.146(g)(4)(A) regarding motions filed by trial counsel for the appointment of appellate counsel. Attorney [FULL NAME OF ATTORNEY WHO FILED THE NOTICE OF APPEAL] shall file a status report within seven days in this court on the parent's representation in this appeal, attaching the order, if any, permitting Attorney [LAST NAME]'s withdrawal and appointing appellate counsel.

Motions for extension of time for preparation of the transcript and for service of briefs are governed by rules 9.146(g)(2)(B) (transcription) and 9.146(g)(4)(C) (briefs), and will be granted only upon a showing of extraordinary circumstances.

Rule 9.146(h) requires this court to give priority to this appeal, and this court expects the clerk of the lower tribunal, the court reporter(s), and the attorneys for the parties to consider their obligations in this proceeding in like fashion.⁷¹

CL184 Order issued at Set-up

This proceeding challenges an order entered in a dependency or termination of parental rights case. It will be perfected and assigned to a panel upon the latter of two events: 1) The filing of an answer brief or, in the case of an original proceeding, the response; or 2) the date the answer brief or response is due. Answer briefs or responses from additional appellees or respondents that are filed after assignment of the proceeding will not be considered absent extraordinary circumstances.

If the appellant chooses to file a reply brief or the petitioner chooses to file a reply, these submissions must be filed within ten days of the filing of the first answer brief or response, and the parties should not expect favorable treatment of any motions that aspire to extend this time deadline. If an answer brief or response from an additional appellee or respondent is timely filed, a second reply brief or reply will be considered if filed within ten days of the filing of the timely additional answer brief or response.

- **Dunning**

SS157 TPR/dependency—request clerk to provide copy of designation

Although the clerk of the circuit court is not required by the Florida Rules of Appellate Procedure to transmit the designations to this court, to assist this court in effecting the timely resolution of this appeal, within 7 days of this order the clerk shall either forward a copy of the designations or file a status report indicating that no designations have been filed.

If a transcript will be necessary in this appeal and Attorney [NOA-SIGNING ATTORNEY] has not filed and served designations, [HE/SHE] shall do so within 3 days of this order and shall forward a copy to this court within 7 days. The designations shall include the name of the individual court reporter, if applicable, or the court reporting entity. See Fla. R. App. P. 9.146(g)(2)(B). In the alternative, Attorney [NAME] shall within 7 days file in this court a status report stating that no designations are to be filed in this appeal.

*[**Important: Irrespective of what names might now be in our docket or in the service list on our earlier orders, verify trial counsel's name on the notice of appeal and ensure that that name appears in the order (and have a secretary correct our docket accordingly).]*

SS158 TPR/dependency—court reporter to acknowledge designation

Court reporter [NAME; or COMPANY NAME] shall within 7 days of this order file in this court a copy of the acknowledgment of the designations served on [DATE]. See Fla. R. App. P. 9.200(b)(3); 9.146(a). If the court reporter has received the designations but is unable to begin transcription for such reasons as lack of financial arrangements or nondelivery of audio media, the court reporter shall attach to the acknowledgment a status report so informing this court.

SS150 Dunning reporter in dependency/TPR appeal

In this expedited appeal pursuant to Florida Rule of Appellate Procedure 9.146, it appears that transmittal of the record has been delayed because the transcripts have not been filed. [Court Reporter] shall file a report on the preparation and filing of transcripts within 10 days.

SS151 Dunning clerk and trial attorney in dependency/TPR appeal

The record on appeal is overdue in this court. The clerk of the circuit court shall report to this court on the status of record preparation within 10 days of the date of this order.

In addition, within 10 days of the date of this order, the trial attorney for appellant, [NAME OF ATTORNEY**], shall file in this court a copy of the designation to the court reporter that was filed with the notice of appeal. If the designation does not indicate the name of the court reporter or court reporting entity, Attorney [NAME] shall inform this court of that name.

[Note: Use SS158 in the early stages, which should make SS151 unnecessary in most situations.]

*[**Important: Irrespective of what names might now be in our docket or in the service list on our earlier orders, verify trial counsel's name on the notice of appeal and ensure that that name appears in the order (and have a secretary correct our docket accordingly).]*

SS156 Solicit AA's address from AEs/TPR appeal

This court's order of [DATE] mailed to the appellant has been returned as undeliverable with no forwarding address. Within 10 days of this order, counsel for the Department of Children and Family Services and for the Guardian ad Litem Program shall inform this court of the last known address of the appellant found in their files.

SS181 TPR/dep — designating atty to make financial arrangements

The court reporter's acknowledgment filed in this court on [DATE] states that the necessary financial arrangements have not been made for transcription. Within 10 days, Attorney [NAME] shall make the necessary financial arrangements for payment to the court reporter and certify to this court that [HE/SHE] has done so.

Within 5 days of receiving information confirming that financial arrangements have been made, Court Reporter [NAME] shall serve on this court and the parties a status report so acknowledging.

SS182 TPR/dep — designating atty to provide CD to court reporter

The court reporter's acknowledgment filed in this court on [DATE] states that Attorney [NAME OF DESIGNATING ATTORNEY] has not forwarded the audio CD to the court reporter. Within 10 days, Attorney [NAME] shall make the necessary arrangements and certify to this court that [HE/SHE] has done so.

Within 5 days of receiving the audio CD, court reporter [NAME] shall serve on this court and the parties a status report so acknowledging.

- **Responses**

SS148 Certiorari response — dependency/TPR

Respondent shall serve a response to the petition for writ of certiorari within twenty days. If the petitioner chooses to file a reply, this submission must be filed within ten days of the filing of the first response. The parties should not expect favorable treatment of any motions that aspire to extend these time deadlines.

The parties shall keep this court apprised of all hearings or trial dates which may be affected by the outcome of this proceeding.

[NOTE: If you need to copy-paste the text of this order to another file, navigate to the underlying version (non-gray version) by hovering over the gray text, pressing the Ctrl key, and left-clicking. Copy-paste the underlying version, not the one in gray here.]

- **Sanctions-related**

SS10 Response or sanctions

* shall respond to this court's order of *, or show cause why sanctions should not be imposed within * days.

SS67 TPR — show cause why sanctions should not be imposed

Counsel for * shall show cause within * days why sanctions should not be imposed for *

SS36 TPR — counsel has not provided order on appeal; sanctions

In this dependency appeal, attorney [FULL NAME] has disregarded this court's order to provide a copy of the order appealed pursuant to Florida Rule of Appellate Procedure 9.110(d). Attorney [LAST NAME] shall remit a copy of the order appealed within ten days or show cause in writing why sanctions should not be imposed.

SS37 TPR — orders on appeal not filed

The notice of appeal filed in the trial court in this civil action fails to comply with Florida Rule of Appellate Procedure 9.110(d), which requires that a conformed copy of the order(s) appealed be attached to the notice, along with any order entered on a timely motion postponing rendition of the order(s) appealed. The 1992 committee note to rule 9.110(d) explains that this provision is designed to assist the appellate court to determine the nature of the order(s) being appealed and the timeliness of any such appeal. Without a copy of the order(s), this court is unable to make preliminary judgments about this court's jurisdiction to entertain the appeal.

Accordingly, attorney [FULL NAME] shall provide a conformed copy of the pertinent order(s) within seven days to this court, with due notification to opposing counsel or parties. Please note the appellate case number on the submission. If this directive is not followed, an order to show cause why counsel should not be subject to sanctions will follow.

SS106 TPR — brief within 10 days or sanctions

Attorney [FULL NAME] shall serve the initial brief within 10 days or sanctions may be imposed.

- ***Withdrawal of counsel***

SS113 TPR — withdrawal of counsel

[Not in use. Formatted as hidden text. Use [SS129](#) instead.]

This cause is before the court on the motion to withdraw filed by counsel for appellant. A copy of this order is being served by the court on the parent at the parent's last known address(es).

Counsel for the appellant is directed to advise the parent that counsel will assist the parent in obtaining the record, if requested. The parent shall have forty days from the date of this order to file a pro se brief with this court.

If a brief is received and it raises no preliminary basis for reversal, the appeal will be subject to summary affirmance pursuant to Florida Rule of Appellate Procedure 9.315. If a pro se brief is received and demonstrates a preliminary basis for reversal, this court will deny the motion to withdraw, order a supplemental brief by counsel for the parent, and proceed pursuant to the appellate rules.

If a brief is not received within the court-ordered time limitation, the appeal will be subject to dismissal for failure to prosecute and the motion to withdraw will be granted at the same time the appeal is dismissed.

[Get AA's address from the motion and add appellant's initials to CMS party screen and be sure it shows up on the order. Click on the check mark so they will get mail.]

SS129 TPR — withdrawal of counsel — N.S.H. (rev. 3/25/09)

Attorney [name], appointed counsel for the appellant/[father/mother], has filed a motion to withdraw certifying that after a conscientious review of the record the attorney has determined in good faith that

there are no meritorious grounds on which to base an appeal. A copy of this order is being served by the court on the parent at the parent's last known address(es).

Attorney [last name]'s motion to withdraw is granted. See N.S.H. v. Dep't of Children & Family Servs., 843 So. 2d 898 (Fla. 2003). Attorney [last name] shall, however, provide the record to the parent if requested and, if so, certify to this court within five days of forwarding the record that [he/she] has done so.

Appellant shall have twenty days from the date of this order to file in this court a brief on [his or her] own behalf or through subsequently retained counsel. The brief must include a certificate of service demonstrating that the appellant has served the brief on the appellee(s):

[DCF contact including mailing address]

[GAL contact including mailing address]

If a brief is received and it raises no preliminary basis for reversal, the appeal will be subject to summary affirmance pursuant to Florida Rule of Appellate Procedure 9.315. If a brief is received and demonstrates a preliminary basis for reversal, the case will proceed as any ordinary appeal.

If a brief is not received within twenty days of this order, the appeal will be subject to dismissal for failure to prosecute.

[Get AA's address from the motion and add appellant's initials to CMS/eFacts party screen and be sure it shows up on the order. Click on the check mark so they will get mail.]

[If the motion indicates that the attorney has already forwarded the record to the pro se, delete the second sentence of paragraph 2.]

SS99 TPR — Grant withdrawal & have court appoint substitute attorney

The motion to withdraw filed by Attorney * is granted. Judge *, who entered the order appealed, shall appoint conflict-free counsel to represent * within ten days, and a copy of the order of appointment shall be furnished to the newly appointed attorney, to this court, to the appellee, to Attorney *, and to the appellant, whose address is ***. If Judge * has rotated out of the dependency division, [HE/SHE] may delegate appointment responsibilities to the successor judge.

Within three days of receiving notification of the appointment of substitute counsel, Attorney * shall forward the record and a copy of this order to the newly appointed attorney and shall certify in writing to this court that this obligation has been undertaken.

The newly appointed attorney shall serve the initial brief within twenty days of receipt of the record from Attorney *.

[Note: The judge is not automatically on the service list in CMS/eFacts. Identify the trial judge from the motion and make a note on the order to serve Judge XXX with the order.]

[Note: ALSO, add the appellant to the service list for this order.]

Final dispositions

SS105 Dismiss TPR for failure to prosecute; grant withdrawal of attorney

[Not in use. Formatted as hidden text. Use [SS131](#) instead.]

Because the appellant has failed to file a pro se brief as provided by this court's order of *, this appeal is dismissed for failure to prosecute. The motion to withdraw filed by the appellant's counsel is granted.

*, * and *, JJ., Concur.

SS131 Dismiss TPR for failure to prosecute after withdrawal of attorney

Because the appellant has failed to file a pro se brief as provided by this court's order of *, this appeal is dismissed for failure to prosecute.

*, * and *, JJ., Concur.

14-589	5	Richard Joyce	No	N/A	

THIRD DISTRICT COURT OF APPEAL
FORM ORDERS FOR TPR/DEPENDENCY

Briefing schedule order:

The notice of appeal in the above styled case was filed in the trial court on _____. Pursuant to Florida Rule of Appellate Procedure 9.146(g), special procedures and time limitations apply to this appeal:

The court reporter shall file the transcript(s) within twenty (20) days of service of the designations. The clerk shall transmit to this Court the record on appeal within five (5) days of the date the court reporter files the transcript(s) or, if a designation to the court reporter has not been filed, within five (5) days of the filing of the notice of appeal. The initial brief shall be served within twenty (20) days of service of the record on appeal. The answer brief shall be served within twenty (20) days of service of the initial brief. The reply brief, if any, shall be served within ten (10) days of service of the answer brief.

Counsel for the appellant shall provide a copy of this order to the court reporter(s). If extraordinary circumstances prevent the court reporter from preparing the transcript(s) within the designated time period, the court reporter shall request an extension of time stating the number of additional days requested, and shall state the extraordinary reasons that would justify the extension.

Failure to comply with this order may result in the imposition of sanctions.

Order on extensions of time:

Absent extraordinary circumstances, the Court will not grant motions for extension of time in termination of parental rights or dependency cases; therefore, appellant's unopposed motion for extension of time is denied. Counsel for the appellant is ordered to file the initial brief within five (5) days from the date of this order

Order issued when initial brief is late:

Within five (5) days from the date of this order _____, Criminal Conflict and Civil Regional Counsel, and _____, Assistant Regional Counsel are ordered to file the appellant's initial brief and show cause why they should not be held in contempt or otherwise disciplined for failing to timely prosecute this appeal pursuant to Florida Rule of Appellate Procedure 9.146(g).
