## NOTICE OF OPPORTUNITY FOR PUBLIC COMMENT

The Committee on Privacy and Court Records was created by the Supreme Court of Florida to address issues related to privacy and the electronic dissemination of court records. The committee has been directed to make recommendations to the Supreme Court regarding proposed policies to govern the electronic release of court records, and has also been directed to recommend categories of information which in the view of the committee should be considered by the Florida Legislature for possible exemption from the right of access to public records pursuant to Article I, section 24 of the Florida constitution.

The scope of the committee's charge extends only to *court records* and does not extend to any other public records such as official property records or records of agencies other than the courts. For more information on the committee and its charge please see the Florida Supreme Court website at:
